

## Press Release

DATE: December 2015

### **New fuel-efficient Comma engine oil for latest Peugeot/Citroën models**

Comma has extended its range of vehicle-specific low viscosity Performance Motor Oils with the introduction of fully synthetic Comma Eco-P 0W-30. Developed specifically for the latest PSA petrol and diesel engines released in 2014 and 2015, it is suitable for applications requiring PSA B71 2312, ACEA C2 and recommended for cars and LCVs fitted with PSA BlueHDi and PureTech engines. Its low viscosity helps to promote fuel efficiency and enables independent workshops to service these in-warranty vehicles in complete confidence under the provisions of EU Block Exemption, covered by Comma's unique 100% Compatibility and Quality Guarantee.

Comma Eco-P 0W-30 joins the fifteen other products in Comma's Performance Motor Oil range, which covers 99% of the vehicle parc, and is available in standard pack sizes of 1L, 5L, 20L and 199L barrel.
